

Initial Filing Instructions for Retail Electric Generation Providers and Power Marketers

I. Where to File: Applications should be sent to: Public Utilities Commission of Ohio, Docketing Division, 180 East Broad Street, Columbus Ohio 43215-3793.

II. What to File: Applicant must submit one original notarized application signed by a principal officer and three copies including all exhibits, affidavits, and other attachments. All attachments, affidavits, and exhibits should be clearly identified. For example, Exhibit C-10 should be marked "Exhibit C-10 'Corporate Structure.'" All pages should be numbered and attached in a sequential order.

III. Which Forms to File: In order to supply competitive retail electric service (CRES), all providers are required to become certified by the Public Utilities Commission of Ohio. The information one must file, however, differs depending on the type of CRES that the applicant will provide. For example, a power marketer applicant will not file the same information as an aggregator. The summary below of CRES provider definitions (from the Commission's certification rules) should help applicants determine which application form to use. There are three application forms to choose from including an aggregator/broker form, a governmental aggregator form, and a generation provider, power marketer, and power broker form.

Aggregation - combining the electric load of multiple retail customers through an agreement with the customers or formation of a governmental aggregation pursuant to Section 4928.20 of the Revised Code for the purpose of purchasing retail electric generation service on an aggregated basis.

Aggregator - a person who contracts with customers to combine the customers' electric load for the purpose of purchasing retail electric generation service on an aggregated basis. The term does not include a governmental aggregator.

Governmental Aggregator - the legislative authority of a municipal corporation, the board of township trustees of a township, or a board of county commissioners of a county that aggregates the citizens of a municipal corporation, township, or unincorporated areas of a county in accordance with Section 4928.20 of the Revised Code for the purpose of purchasing retail electric generation service on an aggregated basis.

Power Broker - a person who assumes the contractual and legal responsibility for the sale and/or arrangement for the supply of retail electric generation service to a retail customer without taking title to the power supplied.

Power Marketer - a person who assumes the contractual and legal responsibility for the sale and provision of retail electric generation service to a retail customer who had title to the electric power provided at some point during the transaction.

IV. Application Form: The application is available on the Commission's web site, www.puco.ohio.gov or directly from the Commission at: Public Utilities Commission of Ohio, Docketing Division, 180 East Broad Street, Columbus Ohio 43215-3793.

V. Confidentiality: An applicant may file financial statements, financial arrangements, and forecasted financial statements under seal. If these exhibits are filed under seal, they will be afforded protective treatment for a period of six years from the date of the certificate for which the information is being provided.

An applicant may file a motion for a protective order for other information not filed under seal per the previous paragraph. If the motion is filed in conformance with rule 4901:1-24-07 of the Administrative Code, it shall be automatically approved on the thirty-first day after the date of filing and the information shall be afforded protective treatment for a period of six years from the date of the certificate for which the information is being provided, unless the commission or an attorney examiner appointed by the commission rules otherwise.

At the expiration of the six-year period provided for in the previous paragraphs, the information will be automatically released into the open record. An applicant wishing to extend a protective order beyond the six-year time period must comply with paragraph (F) of rule 4901-1-24 of the Administrative Code.

VI. Commission Process for Approval: An application for certification shall be made on forms approved and supplied by the Commission. The applicant shall complete the appropriate application form in its entirety and supply all required attachments, affidavits, and evidence of capability specified by the form at the time an application is filed. The Commission certification process begins when the Commission's Docketing Division receives and time/date stamps the application. An incomplete application may be suspended or rejected. An application that has been suspended as incomplete may cause delay in certification.

The Commission may approve, suspend, or deny an application within 30 days. If the Commission does not act within 30 days, the application is deemed automatically approved on the 31st day after the official filing date. If the Commission suspends the application, the Commission shall notify the applicant of the reasons for such suspension and may direct the applicant to furnish additional information. The Commission shall act to approve or deny a suspended application within 90 days of the date that the application was suspended. Upon Commission approval, the applicant shall receive notification of approval and a numbered certificate that specifies the service(s) for which the applicant is certified and the dates for which the certificate is valid.

Unless otherwise specified by the Commission, a competitive retail electric service provider's certificate is valid for a period of two years, beginning and ending on the dates specified on the certificate. The applicant may renew its certificate in accordance with Rule 4901:1-24-09 of the Ohio Administrative Code.

CRES (competitive retail electric service) providers shall inform the Commission of any material change to the information supplied in a certification application within thirty days of such material change in accordance with Rule 4901:1-24-10 of the Ohio Administrative Code.

VII. Contractual Arrangements for Capability Standards: If the applicant is relying upon contractual arrangements with a third-party(ies) to meet any of the certification requirements, the applicant must provide with its application all of the following:

- A detailed summary of the contract(s) including all services provided thereunder;
- The documentation and evidence to demonstrate the contracting entity's capability to meet the requirements as if the contracting entity was the applicant.

VIII. Questions: Questions regarding filing procedures should be directed to CRES@puc.state.oh.us

IX. Governing Law: The certification/renewal of competitive retail electric suppliers is governed by Chapter 4901:1-24 of the Ohio Administrative Code, Chapter 4901:1-21 of the Ohio Administrative Code, and Section 4928.08 of the Ohio Revised Code.
