CASE_NUMBER:

COMMENTS: Placing wind turbines on Lake Erie will impact migration routes of birds significantly. I oppose the planned siting of wind turbines in the lake. Wind turbines are a viable alternative energy source but let's not lose sight of the impact they would have on wildlife. Build them but not on the migration routes of already diminishing bird populations.

COMMENTS: I oppose the project due to the fact that these programs have huge government subsidies and it not for them, they would not be sustainable. This is a misrepresentation of their true value both to the environment and the economy.
