CASE_NUMBER:

COMMENTS: Some of these proposed wind turbines are going to be directly across the street from my home. Im outraged that my fellow neighbors and I have recieved no formal documentation in the mail. If it were not for anti-wind signs and a few news articles, we wouldn't even know about it. Furthermore, it's unacceptable for one individual to get tons of money for having these turbines on his property while simultaneously harming the neighbors. His neighbors recieve no benefit at all and have to suffer all the side effects if the turbines. Side effects ranging from lowered property values to physical ailments such as sleep disorders. It's completely unethical. At the very least, adequate compensation should be given to all those it negatively affects or it shouldn't be allowed to proceed.
