DESCRIPTION OF DOCUMENT: PUBLIC COMMENTS

"After making \$2.1 billion from the December corporate tax cut, AT&T wants to abandon Ohioans by withdrawing from the Lifeline program.

AT&T Ohio's withdrawal would affect over 10,000 customers, including those in low-income households, the elderly, and our veterans. It is despicable that AT&T would throw Ohioans in need under the bus, especially at a time when their profits are skyrocketing.

Approving AT&T's request would signal that companies can rake in billions of dollars from taxpayers while abandoning its own customers. PUCO should block AT&T Ohio's attempt to leave the Lifeline program.

Sincerely,

A concerned Ohioan

Most of those people mentioned got no benefit from the tax "break", real wages have declined since 2014, the rate of inflation nearly 2% in 2018. There is no source for additional electric charges, there is no financial or moral justification for AT&T withdrawing from this program.

Approving AT&T's request would signal that companies can rake in billions of dollars from taxpayers while abandoning its own customers. PUCO should block AT&T Ohio's attempt to leave the Lifeline program.

As a Senior and an AT&T customer, (already paying too much for your services, but that's another story), I oppose your desire, your plan, your goal, to cut off low income people from phone service. So how are poor people supposed to call 9-1-1? With a tin can and a string?

"AT&T participation in the Lifeline program provides vital phone and internet service to thousands of people.

AT&T benefited to the tune of 2.1 Billion in recent corporate tax cuts---Do not let the company abandon their participation in the federal Lifeline program. Over 10,000 customers - including low-income households, the elderly, and veterans - across Ohio are expected to be affected if AT&T withdraws from the program.

As AT&T profits from Ohians, AT&T needs to give back. Withdrawing would throw Ohioans in need under the bus, especially distasteful and unjustified at a time when corporate profits are skyrocketing.

Approving AT&T's request would signal that companies can rake in billions of dollars from taxpayers while abandoning its own customers. PUCO should block AT&T Ohio's attempt to leave the Lifeline program.

“After making \$2.1 billion from the December corporate tax cut, AT&T wants to abandon Ohioans by withdrawing from the Lifeline program.

AT&T Ohio's withdrawal would affect over 10,000 customers, including those in low-income households, the elderly, and our veterans. It is despicable that AT&T would throw Ohioans in need under the bus, especially at a time when their profits are skyrocketing.

Approving AT&T's request would signal that companies can rake in billions of dollars from taxpayers while abandoning its own customers. PUCO should block AT&T Ohio's attempt to leave the Lifeline program.

Sincerely,

A concerned Ohioan

"After making \$2.1 billion from the December corporate tax cut, AT&T wants to abandon Ohioans by withdrawing from the Lifeline program.

AT&T Ohio's withdrawal would affect over 10,000 customers, including those in low-income households, the elderly, and our veterans. It is despicable that AT&T would throw Ohioans in need under the bus, especially at a time when their profits are skyrocketing.

Approving AT&T's request would signal that companies can rake in billions of dollars from taxpayers while abandoning its own customers. PUCO should block AT&T Ohio's attempt to leave the Lifeline program.

Sincerely,

A concerned Ohioan
