

Comments on Case No. 18-0501-EL-FOR for Renewable Energy

Dear PUCO Docketing Division,

It's time we started using renewable energy and recycling what we can.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Randal James

Dear PUCO Docketing Division,

I strongly support clean energy in Ohio. I am proud to be part of a state where we are closing down dirty coal plants and support renewable energy by means of fair net metering policies. Large scale utility renewable infrastructure is the next big push we need to make Ohio a leader and model for the Midwest in clean energy.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

Clean energy, clean air, new jobswhat have you got to lose? Please pass the AEP proposals!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Peggy Retherford
