

Comments on Case No. 18-0501-EL-FOR for Renewable Energy

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Heather Stuhlmann

Dear PUCO Docketing Division,

Renewable and sustainable energy is the only way forward. We won't be able to sustain fossil fuels. Coal and carbon emissions are known to be deadly to humans, especially children and those with compromised respiratory function. Let's do the smart and right thing for our world.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

This is a good idea but at what cost? We are destroying ALL "inhabitable" land across the globe due to just pure and simple greed. We need to send a clear message to the "powers" that be, put yourself in our places, see what we see, smell what we smell, and taste what we taste. Korporate Amerika is a self serving mammalian virus that is choking us all for their personal gains. Yeah, solar power is good, but to whose advantage will it serve best?

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

Solar power should be our #1 source of energy in the world! It only makes comments sense and I am confident that the majority of people feel the same way. Let's make decisions that is best for our environment. We all will still win.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.
