

Comments on Case No. 18-0501-EL-FOR for Renewable Energy

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Dana Engell

Dear PUCO Docketing Division,

I'm thrilled that AEP is embracing the future with their proposed renewable projects. This is the type of corporate leadership that advances both the utility customers and the environment for all of us.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

Dear PUCO Docketing Division,

Decreasing the amount of CO2 in the atmosphere and slowing the breakneck speed of global warming are as important to Ohioans as to the rest of humanity. I hope you will encourage AEP to find and fund sustainable energy solutions like this.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

I really think this project would definitely improve better living and better breathing in our air. I really feel this will make things better for our future and our children's children. No matter what, it's a win win for everyone.....Samantha R.

Dear PUCO Docketing Division,

We need leadership that has the bravery to follow through on what is best for our state in the long run. Fracking, clear cutting, mining; destructive leasing of our public lands, failure to uphold environmental standards that protect our health and that of our progeny is no the policy of a wise, intelligent and brave leadership.

Our fresh water will be a vast resource of great value if we protect it.

Let's support renewable energy and act to protect our rivers, streams, air and forests!

I love my state; do you?

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

What will I tell my kids (ages 4 and 2) thirty years from now if we don't do everything possible to support renewable energy and mitigate climate changing carbon emissions? Please approve AEP renewable energy projects for the jobs, for the lower cost, and for my kids' future clean air and healthy environment. Thank you!
