

Comments on Case No. 18-0501-EL-FOR for Renewable Energy

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Renewable energy is urgently needed

Sincerely,

Raylene Maloy

Dear PUCO Docketing Division,

We have depleted the earth of so many natural resources to the point of leading us to self destruction. It's time we start to heal the earth. The most impact is using green energy like wind or solar power. I live in one of the highest peaks in Ohio . Our elevation is 1110 ft above sea level and we always have a breeze here. We would love to try a wind turbine of some sort but cannot afford the initial cost. We would be willing to test products here. Please contact us if you have something like that available.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,
