RE: Construction Notice
Conesville-Kirk 138 kV Transmission Line Extension Project
Case No: 18-1534-EL-BNR

Dear Property Owner or Resident:

You are receiving this letter because our records indicate you own property or live near a proposed transmission line project. The Conesville-Kirk 138 kV Transmission Line Extension Project, Public Utilities Commission of Ohio Case No. 18-1534-EL-BNR, would involve building about .03 miles of 138-kilovolt (kV) line and adding three steel pole structures. The purpose is to energize a proposed distribution substation in Union Township, located in Licking County.

Construction would take place on property owned by AEP Ohio Transmission Company, Inc. (AEP Ohio Transco), an affiliate of AEP Ohio. AEP Ohio Transco is investing approximately \$600,000 in this project. Construction is scheduled to begin in the fall of next year.

We have prepared and filed a Construction Notice with the Ohio Power Siting Board (OPSB). This is required whenever we make certain changes to our transmission facilities, according to Rule 4906-6-01, et seq., of the Ohio Administrative Code. The Construction Notice to construct, operate and maintain this facility is pending before the OPSB.

The public is encouraged to comment on this project. You can contact me at (614) 552-1929 or ecmiller1@aep.com. You can also send your comments directly to the OPSB at contactopsb@puc.state.oh.us. Petitions to intervene in the OPSB process can be filed to the siting board up to 10 days following the public notice announcing the project.

The accompanying map shows the project area. This map should be used only as a general guide due to its reduced scale and limited detail. Copies of the actual Construction Notice, including specific details about the location and construction, are available for public inspection at the following locations:

Licking County Public Library, 101 W. Main St., Newark, Ohio, 43055

Case No.: 18-1534-EL-BNR

Dear «ADDRESSEE»:

AEP Ohio wants to let you know about a proposed transmission line project in your area.

The Conesville-Kirk 138 kV Transmission Line Extension Project, Public Utilities Commission of Ohio Case No. 18-1534-EL-BNR, would involve building about .03 miles of 138-kilovolt (kV) line and adding three steel pole structures. The purpose is to energize a proposed distribution substation in Union Township, located in Licking County.

Construction would take place on property owned by AEP Ohio Transmission Company, Inc. (AEP Ohio Transco), an affiliate of AEP Ohio. AEP Ohio Transco is investing approximately \$600,000 in this project. Construction is scheduled to begin in the fall of next year.

We have prepared and filed a Construction Notice with the Ohio Power Siting Board (OPSB). This is required whenever we make certain changes to our transmission facilities, according to Rule 4906-6-01, et seq., of the Ohio Administrative Code. The Construction Notice to construct, operate and maintain this facility is pending before the OPSB. We also are communicating with landowners in the project area.

We ask that this Construction Notice be made available to the public. To obtain an electronic copy of the Construction Notice, or if you have any questions about this project, please contact me at (614) 552-1134 or ecmiller1@aep.com.
