Date: Monday, November 19, 2018 2:54:17 PM

Dear PUCO Docketing Division,

This is a win-win for all residents of Ohio--young and old, retired and under-employed, well or ill, etc. for it means first of all better health in cleaner air and water; secondly it means we begin to respect our interdependence with earth and all of earth's inhabitants. This is a moral issue for it is about our common good here on Earth.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Roberta Miller

Dear PUCO Docketing Division,

The Cincinnati area is full of people pushing for renewable energy. Not only will this help the economy but also bring plenty of jobs to neighborhoods in the Cincinnati area and be an example city for renewable energy across the Nation.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR).
