Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Friday, November 23, 2018 9:47:03 AM

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Gregory Pace

Date: Monday, November 26, 2018 9:45:25 AM

Dear Public Utilities Commission of Ohio:

I'm writing in support of American Electric Power (AEP)'s proposed solar energy project and ask that my comment be docketed in case No. 18-501-EL-FOR.

These innovative solar farms will bring low-cost renewable energy to the state, while saving customers money on their utility bills and spurring the creation of new jobs for Appalachian Ohio.

In fact, they would support more than 4,000 jobs, including 113 sustainable manufacturing jobs in the solar supply chain.

States across the country are investing in cheaper, cleaner, and more reliable energy sources that are benefiting local economies and our environment. And now it's Ohio's turn.

Please help support Ohio's clean energy future and make the state a solar energy leader in the Midwest!

Thank you so much for your time.

States across the country are investing in cheaper, cleaner, and more reliable energy sources that are benefiting local economies and our environment. And now it's Ohio's turn.

Please help support Ohio's clean energy future and make the state a solar energy leader in the Midwest!

Thank you so much for your time.

Subject: Please Approve the Ohio Solar Projects: Comment on Case No. 18-501-EL-FOR
Date: Monday, November 26, 2018 9:45:56 AM

Dear Public Utilities Commission of Ohio:

I'm writing in support of American Electric Power (AEP)'s proposed solar energy project and ask that my comment be docketed in case No. 18-501-EL-FOR.

These innovative solar farms will bring low-cost renewable energy to the state, while saving customers money on their utility bills and spurring the creation of new jobs for Appalachian Ohio.

In fact, they would support more than 4,000 jobs, including 113 sustainable manufacturing jobs in the solar supply chain.

States across the country are investing in cheaper, cleaner, and more reliable energy sources that are benefiting local economies and our environment. And now it's Ohio's turn.

Please help support Ohio's clean energy future and make the state a solar energy leader in the Midwest!

Thank you so much for your time.

Mrs. Pamela L. Abirached
Cincinnati, OH
