Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Wednesday, November 28, 2018 9:15:35 AM

Dear PUCO Docketing Division,

Coal and gas and nuclear electric generation all have terrible by products that will poison our atmosphere. Renewable solar, wind, and geo-thermal cause a minimum of harm and can form a sustainable energy base. The time is overdue to switch to renewable energy sources. Ohio could and should become a midwest leader in manufacturing wind turbines and solar panels.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Becca Calhoun

Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Tuesday, November 27, 2018 8:21:25 PM

Dear PUCO Docketing Division,

I live in Ohio and I want us to move toward clean energy. It provides cleaner air and a healthier environment for all of us, and it reduces our dependence on fossil fuels. Thank you for doing what is right for your people and approving clean energy.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Karen Aston

Dear PUCO Docketing Division,

It's time for Ohio to be stewards of our environment. I recently had solar panels installed at my home, but the company I paid to do the work is out of North Carolina. It's time to give that work to hard working Ohioans. If we don't act now, we will continue to fall behind surrounding states and lose out on clean jobs. It's time.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Wednesday, November 28, 2018 7:39:31 AM

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Marcia Giffin

Subject: Please Approve the Ohio Solar Projects: Comment on Case No. 18-501-EL-FOR
Date: Tuesday, November 27, 2018 9:13:49 PM

Dear Public Utilities Commission of Ohio:

I'm writing in support of American Electric Power (AEP)'s proposed solar energy project and ask that my comment be docketed in case No. 18-501-EL-FOR.

These innovative solar farms will bring low-cost renewable energy to the state, while saving customers money on their utility bills and spurring the creation of new jobs for Appalachian Ohio.

In fact, they would support more than 4,000 jobs, including 113 sustainable manufacturing jobs in the solar supply chain.

States across the country are investing in cheaper, cleaner, and more reliable energy sources that are benefiting local economies and our environment. And now it's Ohio's turn.

Please help support Ohio's clean energy future and make the state a solar energy leader in the Midwest!

Thank you so much for your time.

Ms. Donna Caputo
Ashtabula, OH

Date: Wednesday, November 28, 2018 10:42:28 AM

Dear PUCO Docketing Division,

Please for the sake of our living planet and ecosystem and for future generations transition completely off of fossil fuels and continue to invest in renewable energy. Our survival is at stake.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

This is a great way to increase jobs and employment opportunities, it will be needed in the future, renewable energy has really helped to transform the economic opportunities in Iowa, where I lived for several years before moving to Ohio.

Thank you for your service and your concern for the interests of your constituents.

Rachel Kinker
