

Staff Review and Recommendation for

MichTech LLC

Case No. 18-0334-EL-AGG

By Entry dated March 28, 2018, the certification renewal application of MichTech LLC was suspended in order to give the Commission and Staff additional time to consider the application. Staff and the Company had communications regarding the outstanding requirements for the application on at least 14 different days between suspension of the application and November 1, 2018. The application filed on February 26, 2018 did not contain sufficient information for A-2, -3, -5, -13, -15, B-1, C-3, -5, and -7. On September 17, 2018, and October 15, 2018, the Company provided additional documentation that satisfied the requirements for most of the exhibits. However, as of this date, MichTech LLC has not docketed the required information for Exhibit A-3 and A-15. Without the completed information, staff does not have all of the requirements necessary to evaluate the Company's capabilities for certification as a Competitive Retail Electric Service Provider. Because the requirements have not been met, Staff recommends denial of this application.
