

Public comment 18-1607

We live and farm in Sherman TWP in Huron County OH We had originally signed the wind turbine lease, but it has run out and we are not resigning because of all the health problems that have been showing up in areas where the turbines have been for a few years. Also we are against them because of the danger to the bald eagles and the bats. Our area is too populated to have these turbines in our back yard. We also do not like the noise-we have heard them in other areas.

Howard and Sharon Smith
Sherman Township
Huron County

I strongly oppose the wind turbines, Huron County, and all over! I understand the health issues that we can develop. Not to mention all of the damage it will do to the bird population, the infrasound, emf, dirty electric, vibration, the landscape, and all the while not even producing much energy. Please do not go forward with this project in Huron County or anywhere.

Elaine Geiger
