

Comment on Case No. 18-0501-EL-FOR for Renewable Energy

Dear PUCO Docketing Division,

As a resident of Oklahoma wanting my city to be able to purchase renewable energy from the energy market, it is my interest to have Ohio take action to generate renewable energy. Otherwise, Oklahoma and Ohio will be competing to purchase what is available on the market, and the price will go up for all.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Robert Hamm

DOCKETING CASE #: 18-0501-EL-FOR

SUBJECT: Ohio Power Company - Regarding PUCO

I am writing to support AEP's proposal for new clean energy projects. Projects that would create new manufacturing jobs make Ohio a solar leader in the Midwest and protect our environment. AEP's renewable energy projects would lower our bills, help reduce pollution, bring many needed jobs to Ohio where people are facing tough economic times. I worked in health care for 40 years as a clinical laboratory scientist.

Please docket the above comments in the case number above.
