

Public comment 16-0253

I am so very dissatisfied that Duke has refused to continue this horrible pipeline. Please think about all of the lives that this pipeline would affect. The families that will be put into danger. A pipeline of this magnitude has no business being sent through such a highly populated area. I can not believe that our government is not protecting its constituents. Shouldn't your main concern be the safety of people as opposed to big government. Please do not be won over by Duke's highly polished packaging. Think instead of the families, children, elderly, and in general people this pipeline could very well injure or even kill in the event of a rupture. As these type of pipelines are not sent through such highly populated areas. Please let that be your thought process as opposed to just figuring all will be fine. Do not just assume Duke will be diligent. There have been too many instances of pipeline failure. Please just think how you would feel if this was proposed to run by your home, or your children's school, community recreation areas. It truly is not fair to the residents of Hamilton county.
