SUBJECT: **OPPOSITION TO INDUSTRIAL WIND TURBINES IN SENECA COUNTY**

Previous to finding out the facts about these overly large industrial wind turbines I thought that wind power was a good thing. Well it is not, at least not in populated areas, farm lands, around schools or in the area of bats & eagles.

Please keep the wind turbines out of our county. A survey in the county showed 75% of us do not want them. Doesn't that account for something. Do not force us to accept something that has not proven itself to be a good thing - quite the contrary.

*I am totally and completely
against these industrial machines in
or around our area. This is a total
waste of Federal Tax dollars as it
will cost more to produce electricity
in this area.*

Please do not let this happen here.
