

Public comment 18-1578

This solar plant is proposed to be placed very close to the lake Lakengren Community's back entrance, which my home happens to sit closest to. As a resident of Gasper Twp, and Lakengren I, I travel consolidated and pint creek roads several times a day and am concerned about any possible glare that the panels might put off, causing accidents in an already dangerous area (especially in winter). I'm also concerned about any other potential negative affects this site may have on the community. My grandpa has owned property at Lakengren since it was built, and I'd like to see it surrounded by farmland for the next 40 years, not solar panels!!!
