Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Monday, January 14, 2019 12:13:52 PM

Dear PUCO Docketing Division,

The addition of a large-scale solar energy facility will upgrade the energy infrastructure, add diversity to our electricity sources, and will likely offset future electricity needs as the fate of base-load coal and nuclear may diminish. Beyond the energy markets, this project will create new green jobs for the local and state economy.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Gregory Marsano

Date: Monday, January 14, 2019 11:10:28 AM

Dear PUCO Docketing Division,

It is 1/14/2019 and the first good cold weather. We need to have renewal energy produced. I do not see many wind turbines here in Franklin County - can there be more? Less feasible look at the drop in elevation from Franklin county to the Ohio river. Can this drop be used to produce water powered turbines even if it is not as efficient as founf out west having greater water flow?

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

We must at every opportunity (public and private) switch over to renewable energy resources. The future of our planet depends on it and I am not exaggerating. All the scientific evidence points to this. AEP has come up with a good plan and I encourage the PUCO to approve these proposed projects. Ohio should be a leader in this area.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

Renewable energy is essential for us to decrease the already excessive carbon foot print that is causing increases air pollution which in turn cause harmful greenhouse gases that are adding to our global warming . As a nurse, I know this pollution negatively affects those with lung and heart disease. The cost of health care in dollars increases, but more importantly, quality of life is severely impacted. Approve these projects and even more like them to improve and ensure a better quality of life for our citizens and be better stewards of our environment.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Brenna Mcnamee

Dear PUCO Docketing Division,

Human beings are destroying the only world they have. Let us try to reverse the damage while there is still time!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Janice Goodwin
