Date: Tuesday, January 15, 2019 7:54:04 PM

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

James Gilmore

Dear PUCO Docketing Division,

Clean energy is the best way forward here in Ohio. We have the facilities and person power to support clean energy at all levels. I applaud AEP's commitment to renewable energy and strongly encourage approval of their proposals.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

AEP's green energy project > I am writing to show my strong support of American Electric Power (AEP)'s proposed energy project. As an AEP customer, I support the project as a driver of green jobs and opportunity for Ohio to take leadership in the new energy economy. Our state is uniquely situated to become a green energy innovator, and this project would be a tremendous step in that direction. Thank you for the opportunity to comment, and I urge you to support this groundbreaking project.

Dear PUCO Docketing Division,

AEP will close the Conesville power plant in my county (Coshocton). I support this and future projects that provide clean energy and jobs geared toward sustainable solutions to fossil fuels. We only have one chance to save the planet.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

Dear PUCO Docketing Division,

We live in the Ohio Valley where PTTG wants to build an ethane cracker plant to make more plastic, which we don't need. It will pollute our air and water quality. Wind and Solar energy is the answer for the future.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.
