Scores

Credit Risk Score

The Small Business Credit Risk Score™for Financial Services is designed to assist credit grantors in improving risk assessment throughout a small business's account like cycle, reducing delinquency rates and improving profitability. The score utilizes unique bank loan, credit card, and lease information, as well as supplier, telco and utility credit history, public records, and firmographic data from the Equifax Commercial database.

The score predicts the likelihood of a small business incurring greater than 90 days severe delinquency or charge-off over the next 12 months.

Score range is 101 - 992, with the lower score indicating higher risk. A score equal to 0 indicates a bankruptcy on file. Up to four reason codes may be returned which indicate the top factors influencing the score.

Payment Index

A dollar-weighted indicator of a business's past and current payment performance based on the total number of financial and non-financial payment experiences in the Equifax Commercial database. The median Payment Index for the inquired business's industry is also shown for benchmark purposes, provided there is enough information in the Equifax Commercial database on that particular industry to ensure a statistically valid value. The chart shown provides a suggested interpretation of the Payment Index value.

Business Failure Score

The Business Failure Risk Score™ is designed to predict the likelihood of a business failure through either formal or informal bankruptcy within a 12-month period.

Score range is 1,000 - 1,880, with the lower score indicating higher risk. A score equal to 0 indicates a bankruptcy on file. Up to four reason codes may be returned which indicate the top factors influencing the score.

Dispute Information

THANK YOU FOR PURCHASING YOUR EQUIFAX SMALL BUSINESS CREDIT REPORT.

The business report contains financial and non-financial information reported by third parties relating to your business. Equifax has taken great care to report this information correctly. The business report is designed to capture the complete history of the business including payment performance and public record information. A change of ownership, a change of legal entity type (for example, sole proprietor to LLC), a change of location, an expansion to additional locations, or other common business events do not eliminate historical data regarding the business.

Equifax provides your business with a dispute process to address any perceived inaccuracies on the report. Only the business owner or registered corporate officers of the company may dispute a report on their company. If you are not the owner / officer or the business report in question is not your business then you cannot file a dispute.

The dispute process is not intended to provide the business an opportunity to dispute and request the removal of accurate historical information (positive or negative) about the business. Additionally, only that information contained in the Public Records and Bureau Data sections of the report may be changed as a result of a dispute. However, your business does have the opportunity to provide a statement of explanation that can be added as a comment to other sections of the report. The comment may be reviewed and/or used by recipients of a business report to help understand your business's past history. Depending on the nature of the statement, Equifax may require supporting documentation.

If you believe there is any inaccuracy with the report's information, please email us at customerservice@equifaxsmallbusiness.com. We will work with you to determine the details of the dispute and supply you with a Research Request form. Once you know the details of your dispute you will need to complete the Research Request Form and send it to us. Upon receipt of the completed Research Request Form, Equifax will forward a request for verification to the reporting entity. After completion of the verification process, Equifax will notify you in writing of the results.

Please refer to the Equifax Small Business web site for additional details on how your business information is gathered and reported by Equifax. If you have any further questions about your Equifax Small Business Report, feel free to contact the Customer Service department.

Thank you for the opportunity to serve you.
