Re: 18-501-EL-FOR, 18-1392-EL-FDR, 18-1393-EL-ATA

I am a retired teacher, and concerned Ohio consumer. I urge PUCO to support AEP Ohio's claim that there is a need for 900 MW of renewable energy. There is need for renewable energy produced in Ohio because: 1) there is growing consumer demand for renewables, 2) it will be a catalyst for us to become a clean energy economy, & 3) it will help to attract companies that have clean energy goals to meet. I currently get my electricity through Aggregation. I take advantage of the clean energy option. As increasing numbers of Ohio consumers do this, we will need Ohio sources of renewable energy to fill the demand. Thank you, Stephen Ploetz
