Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Wednesday, February 6, 2019 7:25:24 AM

Dear PUCO Docketing Division,

As s person who recycles, uses organic products, hates waste, and loves nature, I would love to see less coal dependent energy. I moved to the country and recently the Kyger Creek Plant put an ash pit across the road from me, literally above my head. They claimed it is "environmentally safe". However, the water flow in the creek is different, my garden plants get spots on them and my deck gets filthy sooty black gunk on it. I wish I could participate in the solar panel project, but they said Buckeye Rural is not part of that partnership. This planet is our home, we cannot just keep depleting its resources or contaminating it. I have children and grandchildren who will be here after I am gone. I'd like to leave them something better.

Thank you!

M Barte

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Marianne Barte

Dear PUCO Docketing Division,

This is an immensely important step to create and secure jobs, and sustainable jobs that cause less distress to ourselves and all aspects of our environment!!!! Please take this opportunity to create a better future. This is crucial.

P.S. I see evidence of pollution affecting our soil, water and a lot of the flora and fauna in the country where I live. We bought land and are working on remediating it, but we need your help!

Sarah Brown

Dear PUCO Docketing Division,

This is the type of renewable energy project Ohio needs. Let's make Ohio an energy leader!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR).
