Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Thursday, February 14, 2019 7:50:19 AM

Dear PUCO Docketing Division,

I am very concerned that we are not moving fast enough on climate change in Ohio. I am doing what I can, such as owning an EV and planning to install solar on my home this summer. I can't understand why policy makers in Ohio are not addressing this with more urgency.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Tana Stanton

Dear PUCO Docketing Division,

Let's make this happen. It's a boon for Southeast Ohio--an area in need of such! Jobs, lower electric bills, and clean renewable energy! Please think forward...this is the energy of the future--and now!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Dear PUCO Docketing Division,

I believe that this is exactly the forward thinking our state needs right now. Solar, and other renewable energy are the only way forward and now is the time to make that investment!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.
