**Date:** Tuesday, March 5, 2019 5:30:36 PM

---

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

**DOCKETING CASE #:18-501-EL-FOR**

**SUBJECT:** Please approve AEP's proposed renewable energy projects

The new renewable energy projects proposed by AEP deserve the approval of the Public Utilities Commission.

Fossil fuel based business-as-usual is untenable. There is no "clean-up" measure on the horizon to reverse the harm to our climate from carbon fuels; we need to replace them with clean energy, rapidly.

Ohio needs projects like this AEP proposal, in order to be a leader in sustainable energy, rather than falling behind and eventually purchasing power from other states which have prepared for a zero-carbon economy.

Please docket the attached in the case number above.

Sincerely,

**DOCKETING CASE #:18-501-EL-FOR**

**SUBJECT:** Ohio Power Company - Protest Rate Case

I am writing in support of AEP-Ohio plans for solar energy in southern Ohio. It is a shame the people of Ohio are asked to keep aging and polluting coal plants open when viable alternatives are in plain sight. I want our state to enter into the new world, not live in the fossil fuel burning of the past.

Please docket the comment in the case number above.
