

Memo

TO: Docketing Division

From: Jill Henry, Rail Specialist, Rail Division

Cc: PUCO Legal Department

Date: 3/11/2019

Re: PUCO Case No. 16-2258-RR-FED- In the Matter of a Request for the Installation of New Active Warning Devices at the Wheeling & Lake Erie Railroad Grade Crossing, DOT# 002-141R, on Summit Street in Summit County, Ohio.

On November 14, 2016, the Ohio Rail Development Commission (ORDC) authorized funding for Wheeling & Lake Erie Railroad (WE) to install mast mounted and cantilevered lights and gates at the following location:

| Street | DOT# | County | Project |
|---------------|----------|---------------|------------------|
| Summit Street | 002-141R | Summit County | Lights and Gates |

On January 18, 2017, the Commission issued a Finding and Order approving the project and requiring project completion by October 18, 2017.

On October 13, 2017, WE filed a request for a 30 day extension. The electric company, Ohio Edison is having trouble setting the electric service poles due to sewer work the City of Akron is completing in the area. WE has installed the foundations and warning devices and has a little more circuitry work and conduit work yet to complete. Staff recommended the 30 day extension.

The crossing project has been completed and is in-service as follows:

| Street | DOT# | County | Date of Completion |
|---------------|----------|---------------|--------------------|
| Summit Street | 002-141R | Summit County | 10-18-2017 |

Accordingly, the above case may be closed.

This foregoing document was electronically filed with the Public Utilities

Commission of Ohio Docketing Information System on
