Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Jeremiah Bookman

Dear PUCO Docketing Division,

AT LEAST think of ALL THE JOBS that will be created by moving to Sustainable Energy. As Governor Mike DeWine stated, we currently only use 3% of energy as sustainable renewable energy. We can do better than this, we must!

Please docket the following comments in the case number above.

I really like the idea of a solar farm and privatized subsidies is one of the great ideas of democratic capitalism.
