Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Mryia Williams

Dear PUCO Docketing Division,

Our city purchases renewable energy credits from AEP Energy. Right now that energy is coming from wind power in Illinois. We would love to have more Ohio-based programs so that we can build our local economy well also expanding renewable energy credit programs to our parts of southwest Ohio. Please approve these projects.
