Notice of Filing to Establish New Rate Recovery Mechanism
PUCO Case No. 19-0468-GA-ALT

Dear Public Official:

The East Ohio Gas Company d/b/a Dominion Energy Ohio (Dominion) has continued to invest in infrastructure and other assets that benefit both our customers and our communities. One of these initiatives is called the Capital Expenditure Program. Since 2012, the Public Utilities Commission of Ohio (PUCO) has authorized Dominion to defer certain expenses associated with capital expenditures to expand, improve or replace its facilities to serve customers; to install, upgrade or replace information technology systems; and to comply with rules, regulations, or orders of the PUCO or other governmental entities. These investments have been possible without an adjustment in rates due to Dominion's ability to defer related post-in-service carrying costs, depreciation and property taxes.

On or after April 29, 2019, Dominion plans to file an application asking the PUCO to establish the Capital Expenditure Program Rider (CEP Rider). The CEP Rider will recover both the deferred expenses and ongoing costs related to the assets to which these expenses are attributable. As required by the PUCO, Dominion has submitted a pre-filing notice of its intent to make this application along with other required information. No charge will be implemented until the PUCO has analyzed and audited the schedules contained in the April filing and approves charges based on its review. That process is not expected to be completed until the fourth quarter of 2019.

Dominion has estimated the levels of the CEP Rider based upon an allocation of the estimated program costs, consistent with allocations approved by the PUCO in Dominion's most recent rate case proceeding, PUCO Case No. 07-0829-GA-AIR.

Rate Schedule

Estimated Rate

General Sales Service - Residential and Energy Choice Transportation Service - Residential	\$3.89 per month
General Sales Service - Nonresidential and Energy Choice Transportation Service - Nonresidential	\$11.06 per month

<u>Rate Schedule</u>	<u>Estimated Rate</u>

General Transportation Service and Transportation Service for Schools	\$447.70 per month

The final rates approved by the PUCO may differ from the estimated rates shown above. Please note that, as the case progresses, changes to these rates or other proposals may be requested by Dominion or other parties, and may be modified by the PUCO. A copy of the pre-filing notice, the exhibits to the notice, the application, testimony, and other materials relevant to these requests will be available for viewing on the PUCO's Docketing Information System website (<http://dis.puc.state.oh.us>) as they are filed under Case No. 19-0468-GA-ALT. If requested at one of the numbers below, DEO will provide at its expense a hard copy or compact disc of the proposed tariff sheets and typical bill comparison.

We appreciate the opportunity to serve your community and look forward to answering any questions you may have regarding this notice. If you have any questions or need more information, please contact me at Tracy.A.Oliver@dominionenergy.com or (216) 736-6219, Paul Briggs at Paul.R.Briggs@dominionenergy.com or (614) 221-3263, or your Dominion local affairs representative – Kyle Miller at Kyle.D.Miller@dominionenergy.com or (216) 736-6201, Ty McBee at Ty.C.McBee@dominionenergy.com or (216) 736-6213, Tracy Stevens at Tracy.W.Stevens@dominionenergy.com or (330) 478-3104, or Peggy Ehora at Peggy.A.Ehora@dominionenergy.com or (419) 226-4866.

Injections nominated below the preceding minimum levels at any Target Injection Date shall (1) be treated as Negative Imbalance Volumes and reconciled pursuant to the applicable general terms and conditions of transportation or pooling service, (2) result in an equivalent reduction of the Maximum Storage Capacity, or (3) some combination thereof. The Customer shall make the election among the preceding options so as to eliminate the entire imbalance. If East Ohio encounters operating conditions that dictate daily storage management, daily injections as estimated by East Ohio may be limited to 1/214th of the Maximum Storage Capacity. East Ohio may, at its discretion and on a non-discriminatory basis consistent with operational capabilities, waive the preceding requirements at the Customer’s request.

Winter Period Operation. The Customer shall nominate withdrawal volumes so as to attain the following storage inventory levels, expressed as a percentage of the Maximum Storage Capacity:

<u>Date</u>	<u>Required Storage Inventory Level</u>
December 1	92% to 95%
January 1	55% to 65%
February 1	30% to 35%
March 1	12% to 17%

Withdrawals nominated above the preceding maximum levels at any date above shall be treated as Negative Imbalance Volumes and reconciled pursuant to the applicable general terms and conditions of transportation or pooling service. Withdrawals nominated below the preceding minimum levels at any date above shall be treated as Positive Imbalance Volumes and reconciled pursuant to the applicable general terms and conditions of transportation or pooling service. conditions that dictate daily storage management, daily withdrawals as estimated by East Ohio may be limited to 1/151st of the Maximum Storage Capacity. East Ohio may, at its discretion and on a non-discriminatory basis consistent with operational capabilities, waive the preceding requirements at the Customer's request.

The Customer shall nominate volumes for withdrawal so as to completely withdraw its Cumulative Storage Injection Volume by March 31. Any volumes remaining in inventory as of that date may be purchased by East Ohio at its discretion and on a non-discriminatory basis as Positive Imbalance Volumes pursuant to the applicable general terms and conditions of transportation or pooling service and will be subject to all reservation, injection and withdrawal fees in addition to those already payable for the service.

In order to support system operations and maintain system integrity, East Ohio may require Winter Period storage re-injections or withdrawals under an On-System Storage OFO ("Storage OFO") in which it will indicate the required Storage Volume to be injected or withdrawn for the period during which the Storage OFO is in effect.

The rates charged to each Customer electing to purchase this service shall not exceed (1) a reservation fee of \$0.6773 per Mcf times the Maximum Storage Capacity, payable before November 1 each year, and (2) a usage fee of \$0.0853 per Mcf injected and \$0.0843 per Mcf withdrawn, and (3) a CEP Rider charge of \$0.1269 per Mcf times the Maximum Storage Capacity. Customers receiving this service shall also be responsible for charges pursuant to East Ohio's Gross Receipts Tax Rider. In no event shall the charges under this Section 5.1 be less than the Variable Cost of Service.

5.2 In/Out Service

Customers purchasing this service may inject gas into East Ohio's storage facilities on any Day and withdraw gas on any subsequent Day, potentially with seasonal limitations on injections and withdrawals if operating conditions so require. East Ohio shall manage the Customer's injection and withdrawal volumes, subject to the daily and annual limitations specified in the contract, in a manner that will minimize any otherwise applicable imbalance charges.

In order to support system operations and maintain system integrity, East Ohio may require Winter Period storage re-injections or withdrawals under an On-System Storage OFO ("Storage OFO") in which it will indicate the required Storage Volume to be injected or withdrawn for the period during which the Storage OFO is in effect.

The rates charged to each Customer electing to purchase this service shall not exceed (1) a reservation fee, payable monthly, of the sum of (a) \$1.9229 per Mcf times the Maximum Daily Storage Capacity specified in the contract and (b) \$0.0422 per Mcf times the Maximum Storage Capacity specified in the contract, and (2) a usage fee of \$0.0226 per Mcf injected or withdrawn and (3) a CEP Rider charge of \$0.1269 per Mcf times the Maximum Storage Capacity specified in the contract. Customers receiving
