EXPERIENCE & PLANS  
JANUARY 1, 2016

On behalf of its member healthcare providers, Applicant negotiates the purchase of goods and services with third – party suppliers, including negotiations for the purchase of natural gas, so that its members can benefit from their combined purchasing power. Applicant issues Request for Proposals (RFP) to third – party licensed or certificated competitive retail natural gas suppliers (CRNGS) to serve the aggregate demand of Applicant’s participating members. Applicant then negotiates a Group Purchasing and Energy Aggregation Agreement (Group Purchasing Agreement) with the winning licensed CRNGS, including pricing and other terms of its members’ purchase of natural gas from the third – party licensed CRNGS. In accordance with the Group Purchasing Agreement, each participating member enters into a separate Transaction Agreement with the third – party licensed CRNGS, whereby the member purchases natural gas directly from the third – party licensed CRNGS, and remits payment directly to the natural gas distribution company or the third – party licensed CRNGS. Applicant does not take title to the natural gas, make payments on behalf of its members, or receive any payments from its members. Applicant only receives an administrative fee from the third – party licensed CRNGS, to cover the costs of conducting the RFP and negotiating and administering the Group Purchasing Agreement. Applicant does not provide any services to residential customers, and will not serve residential customers in Ohio.

Applicant proposes to negotiate for the purchase of natural gas on behalf of its members in Ohio from a third – party CRNGS licensed by the Commission. Each member will directly purchase natural gas from the third – party licensed CRNGS, and remit payment directly to the natural gas distribution company or third – party licensed CRNGS. Applicant will not take title to the natural gas or responsibility for delivery.

If there are any customer inquiries or complaints regarding Applicant’s services, Applicant’s in – house legal department or in – house management will serve to resolve any disputes. Applicant may also obtain assistance from outside legal counsel when appropriate.

EXHIBIT D – 1 OPERATIONS

A current description of the operational nature of Applicant's business functions follows. Applicant is a GPO, the members of which are hospitals and other healthcare providers, including not – for – profit and for – profit acute care hospitals, ambulatory surgery centers, alternate care sites, and physician practices. On behalf of its members, Applicant negotiates the purchase of goods and services with third – party suppliers, including negotiations for the purchase of natural gas and electricity services, so that its members can benefit from their combined purchasing power.

As part of its business functions, Applicant issues a RFP to third – party licensed or certificated competitive retail natural gas suppliers (CRNGS) to serve the aggregate demand of Applicant's participating members. Applicant then negotiates a Group Purchasing and Energy Aggregation Agreement (Group Purchasing Agreement) with the winning licensed CRNGS, including pricing and other terms of its members' purchase of natural gas from the third – party licensed CRNGS. In accordance with the Group Purchasing Agreement, each participating member enters into a separate Transaction Agreement with the CRNGS, whereby the member purchases natural gas directly from the CRNGS, and remits payment directly to the natural gas distribution company or the CRNGS. Applicant does not take title to the natural gas, make payments on behalf of its members, or receive any payments from its members. Applicant only receives an administrative fee from the CRNGS, to cover the costs of conducting the RFP and negotiating and administering the Group Purchasing Agreement.
