# **NOTICE OF PROPOSED MAJOR UTILITY FACILITY**

Angelina Solar I, LLC (“Angelina”) is proposing to develop, build, and operate the Angelina Solar Farm, an 80 megawatt solar-powered electric generation facility to be located in Preble County, Ohio.

The proposed Angelina Solar Farm will be located in Israel and Dixon Townships in Preble County, approximately 30 miles southwest of Dayton, as shown in the map below. The general purpose of this project is to use large arrays of ground-mounted photovoltaic (“PV”) modules, commonly known as solar panels, to generate clean and renewable electricity for consumers in Southwestern Ohio. It will supply wholesale power to the 138-kilovolt College Corner Substation (“POI substation”), which is owned and operated by American Electric Power. The POI substation is located just west of the Ohio-Indiana border near the intersection of East Greenwood Church Road and State Line Road. The Angelina Solar Farm will be located within an area of approximately 827 acres.

The Angelina Solar Farm solar panels will generate direct electric current which will be converted to alternating electric current. The electricity will be gathered by means of a network of buried wires at a project-level electric substation. The substation then will increase the voltage and deliver the power through a short transmission line to the POI substation.

Angelina has filed with Ohio Power Siting Board (Board or Power Siting Board) an application for a Certificate of Environmental Compatibility and Public Need to construct the Angelina Solar Farm in Case No. 18-1579-EL-BGN now pending before the Board.

The public hearing shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person on April 30, 2019, at 6:00 p.m., Eaton Fire Division Station #2, 391 West Lexington Road, Eaton, Ohio 45320.
2. An evidentiary hearing commencing on May 14, 2019, at 10:00 a.m., in Hearing Room 11-D at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793.

The public will be given an opportunity to comment on the proposed facility.

The initial notice of this application was by letter dated March 1, 2019 and was published in the Eaton Register-Herald on March 2, 2019.
