Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Friday, May 17, 2019 9:16:59 AM

Dear PUCO Docketing Division,

This is important for Ohio's future!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

DEBRA MILLER

Dear PUCO Docketing Division,

It makes so much sense to me to gather the abundant energy of the sun to power our homes and businesses. I have solar panels on my home already. i strongly urge the development of this, and other, solar projects.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

I deliver presentations to high school students on how to address climate change. It's important for them to know that utilities like AEP Ohio are making commitments to renewable energy and away from fossil fuels.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

I was thrilled to learn that AEP has proposed 900 megawatts of renewable energy installations, including 400 MW of solar energy! I hope I can sign up for it here in Marietta! AEP's proposed projects would lower our bills, help reduce pollution, and bring many needed jobs to Ohio, especially areas that have faced tough economic times, like Southern Ohio, if the Public Utilities Commission of Ohio (PUCO) approves the projects.

I urge the Public Utilities Commission to approve AEP's proposed renewables projects!

Climate change is real and this is a step in the right direction. But it benefits Ohioans in many other ways, too.

Sincerely,

Dawn Hewitt

Dear PUCO Docketing Division,

I'm from southern Ohio where we desperately need jobs and opportunities to transition to clean energy. I've had two relatives die of cancer because they lived one block from the old Semet Solvay plant in Ironton. Clean energy is the future!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

This project is so important to southern Ohio. Ohio must move forward in supporting renewable clean energy projects for our future. THIS is energy security, NOT fossil fuels! Thousands of Ohioans are supporting this project and urging its approval.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Friday, May 17, 2019 7:35:04 AM

Dear PUCO Docketing Division,

As a long time resident of Marietta, I have struggled with our need for electricity and the pollution from first coal and now natural gas power plants. But now we can have our electricity from clean and economical renewable power. Plus, with the problem of climate change that our kids and grandkids will have to live with, this would help solve that too. And the jobs it creates will be jobs of the future. This is a no brainer! I urge you to approve AEP's proposal.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR).
