The Great Lakes are one of the wonders of the world and enjoyed by millions. Would Arizona, Nevada or Utah approve wind turbines for their portion of the Grand Canyon? Would Montana approve turbines for Yellowstone? Would California approve wind turbines for Yosemite? Why in the world would anyone approve wind turbines for a Great Lake....our Great Lake.

Come on OPSB and governor DeWine, take a step back and see the big picture. We have one of the wonders of the world and all the many benefits that go with it. This is a no brainer. Do you really want your fingerprints on this? Please, we urge you – Do not approve the permit.

Leigh Digel

Dear Mr. Butler and OPSB,

Re: Icebreaker offshore wind project; docket #16-1871-EL-BGN

Please add these comments to those opposing the Icebreaker project.

Dear Ohio Power Siting Board,

The magnitude of this offshore wind project is so great and affecting millions of American and Canadian people, including their drinking water, numerous ecological issues, property values, aesthetics, the need for the project, lies generated by the developers, public trust doctrine - that a decision to industrialize Ohio's Lake Erie **should not be made** by 7 unelected OPSB bureaucrats. *At the very least a decision on this matter should be made by the owner's of Lake Erie - the people of Ohio - after they've all been made acutely aware of the numerous shortcomings the project presents. This issue should be placed on the ballot in November or at a special state election to decide this matter.*

*Lake Erie cannot speak for itself. Do not give Lake Erie away to foreign interlopers!*

Sincerely,

Al Isselhard
