NOTICE OF PROPOSED MAJOR UTILITY FACILITY

This notice is being published because the date of the public hearing regarding the Nestlewood Solar Project has now been changed to May 30, 2019, as detailed below.

Nestlewood Solar I LLC ("Nestlewood") is proposing to develop, build, and operate the Nestlewood Solar Project, an 80 megawatt solar-powered electric generation facility to be located in Clermont County and Brown County, Ohio.

The proposed Nestlewood Solar Project will be located in Tate Township in Clermont County and Clark Township in Brown County, approximately 3 miles west of Hamersville, Ohio, as shown in the map below. The general purpose of this project is to use large arrays of ground-mounted photovoltaic ("PV") modules, commonly known as solar panels, to generate clean and renewable electricity for consumers in Southwestern Ohio. It will supply wholesale power to the 69-kilovolt ("kV") South Bethel-Brown transmission line, which is owned and operated by Duke Energy, via a new project substation and utility switchyard. The project substation and utility switchyard are to be located near the northeast corner of Bethel Maple Road and Leonard Road. The Nestlewood Solar Project will be located within an area of approximately 610 acres.

The Nestlewood Solar Project solar panels will generate direct electric current which will be converted to alternating electric current. The electricity will be gathered by a means of a network of buried wires at a project electric substation. The project substation will deliver the power through a short transmission line to the utility switchyard, which will then connect to the existing South Bethel-Brown transmission line via another short transmission line.

Nestlewood Solar I LLC has filed with the Ohio Power Siting Board (Board or Power Siting Board) an application for a Certificate of Environmental Compatibility and Public Need to construct the Nestlewood Solar Project in Case No. 18-1546-EL-BGN, which is now pending before the Board. Copies of the Application were served upon the Brown County Board of Commissioners, Clermont County Board of Commissioners, Tate Township Board of Trustees, Clark Township Board of Trustees, Clermont County Planning Commission, Brown County Planning Commission, Clermont County Office of Economic Development, Brown County Department of Economic Development, Brown County Soil and Water Conservation District. A copy of the Application was also provided to and is available for public review at the Brown County Library in Georgetown and the Clermont County Library in Bethel. The Application is also available from Nestlewood's website at https://www.lendlease.com/us/projects/nestlewood-solar/?id=e305d4b3-d053-4081-ad61-c78a94ca55a5 as well as from the Board at https://www.opsb.ohio.gov/ or by calling 1-866-270-6772.

The Board follows the following criteria for reviewing an application for a major utility facility:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
- (2) The nature of the probable environmental impact;

(3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;

(4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and

interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;

(5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.

(6) That the facility will serve the public interest, convenience, and necessity;

(7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.

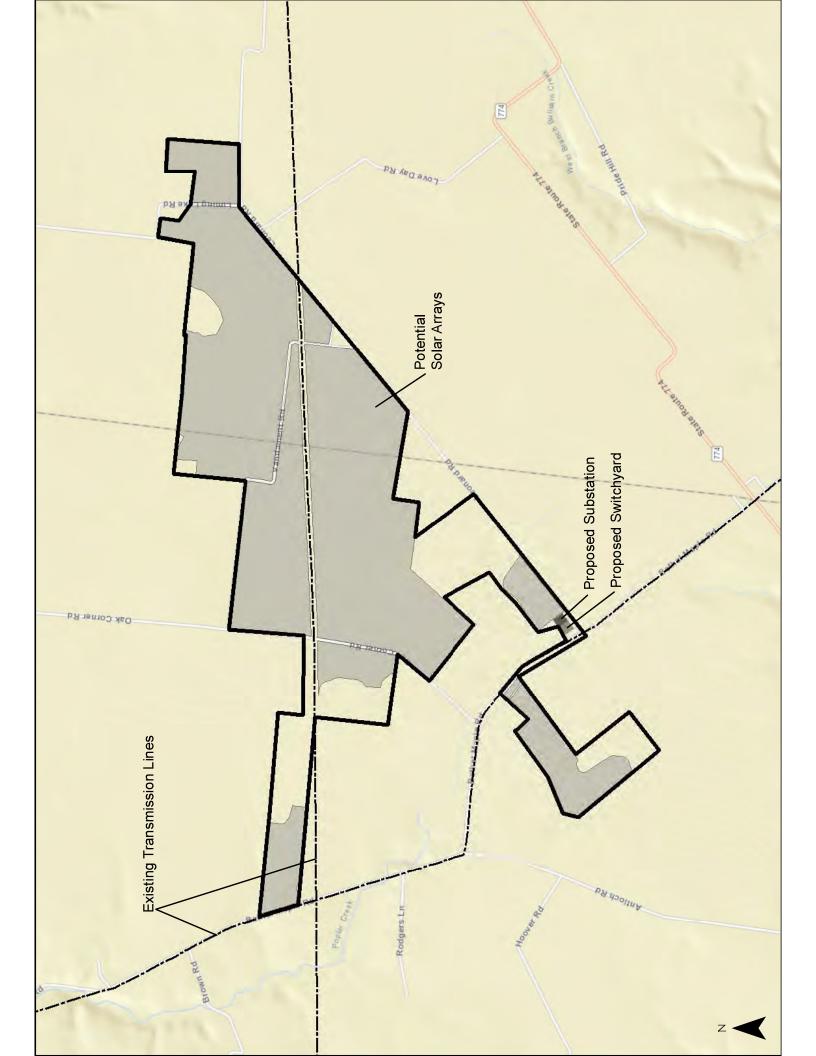

(8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Facility. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person on May 30, 2019, at 6:00 p.m., at Hamersville Elementary and Middle School, 1950 State Route 125, Hamersville, Ohio 45130.

2. An evidentiary hearing commencing on June 13, 2019, at 10:00 a.m., in Hearing Room 11D at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793.

Petitions to intervene in the adjudicatory hearing are due not later than May 17, 2019. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

Union Twp.: A busy year of major developments

Continued from page 1

have been contemplated for those, and really, the TIFs in

those, and really, the TIFs in Union Township are really the lifeblood of the safety services organization that we have, "he said. A TIF is something local governments do for the stated purpose of subsidiz-ing economic development. Real estate within a TIF is set at a base value, and everything after that is real-located to a different fund. Those TIFs have allowed the township to not ask for website

the township to not ask for any levies for safety serv-ices since 2009, the last

inity in the to many set to be a set of the set of the

more firefighters ... but we're just at a point where we can't afford to do that," said he said. In a follow up after the meeting with John Mc-Graw, board president, Mccellence.

The sixth JEDD with The sixth JEDD with Milford also revolves around the former Glen Este campus. A JEDD is a way a town-Graw discussed in an email with *The Sun* the various projects coming to the for-

mer 100-acre Glen Este campus, located at 4342 Glen Este-Withamsville ship, which can't levy an in-Glen <u>Est</u>-Withamsville Road, and defended the use of TIFs and JEDDs. One of the projects com-ing to the former campus is Child Focus, the private not for-profit private agency that provides a "broad range of early learn-ing, mental health, school, foster care and community services," according to its website.

ship, which can't levy an in-come tax, to partner with municipalities who can, and then split that disbursement received from an economic development program. Through the JEDD, Union Township would get 85 percent of 1 percent in-come tax on the develop-ment, and Milford would get the remaining 15 per-cent. McGraw also said that in

the past five years, the township has had over \$500 "I am glad we could pre-serve part of the old campus and be able to offer support access to education for our children that. Child Focus offers. This opens up the Glen Este project up not only to Union Township but to all school children throughout Clermont County and the Greater Cincinnati area. This helps make this project a regional project." McGraw said. 'I am excited to continue to partner with Incal education to make our community a better place to raise your family and to promote edu-entional and deconomic ex-"I am glad we could premillion in new development as a result of JEDDs and TIFs. He echoed Geis that TIFs are an economic tool that allows the township to

that allows the township to "improve astery services and our roads without ask-ing homeowners to pay higher tax levies." "So we can encourage de-welopment and not put a burden on our residents. In the case of Glen Este, the TIF money will go back to West Clermont Schools to help pay for the new High School. The residents bene-fit because they do not have fit because they do not have to pay for an expensive bond levy," he said. In other words, McGraw ational and economic ex-

said these "economic tools" the township uses are not tax increases. "Under The TIFs we cre-

ated, the local schools are made whole, meaning they get the normal revenue they would have received. The rest of the payment goes to Union Township to pay for expenses on the develop-ment, safety services and road and street expenses due to the new activity. ITFs are for limited terms and eventually the owner will pay normal real estate taxes on the land and im-provements. Remember, the said, noting the township has been able to avoid tax levies or city tax increases Another project coming to the Glen Este campus is the 13-acre assisted living facility, with an option for PVL Investments, LLC to purchase an additional 11 acres, for an overall poten-tial \$40 million investment, Motienve coild

tial \$40 million investment, McGraw said. The first phase of the project, located on Elick Lane and Bach Buxton Road, will be a 96.00 square foot facility with 107 with inschare the second provements. Remember, the only way you can create a TIF is to have a new projsquare tool facility with too units, including a hair salon, lounges, a theatre room, and so on. However, McGraw said no full-skilled nursing will be attached to the project. Without new projects, you would not be adding to your tax base," McGraw

your tax base," McGraw said. The JEDDs — something McGraw said he doesn't "do lightly" — pay for safety services needed for the new project. McGraw said levice fall \$3 million short to pay for safety services, and the tax helps in that area. "I would like to avoid creating JEDDs if at all pos-sible, but in this case I did not oppose it due to the na-ture of the Glen Este project helping pay for the new

will be attached to the proj-ect. Aside from Child Focus and the assisted living facil-ity, McGraw said the re-maining acreage is under contract and "looks to be a mixture of retail and new housing," There will also be access to a new road with sidewalks, as the Aicholtz Road Connector will go through the existing bus garage through the property helping pay for the new high school. These jobs garage through the property to Bach Buxton Road. "It will be a busy year of would not have been cre major developments in Union Township. This new development is another major step in the unpreceated or brought to Union Township without this land-mark agreement with the West Clermont Schools," he

dented cooperation deal be-tween Union Township and the West Clernont Local School District to fund the new high school," he said. McGraw said the project should bring 75 new jobs to the area.

New theater in Eastgate?

Other items from Geis' administrative report in cluded:

A new cinema is going into the Jungle Jim's plaza

The the children strength of the second tion the Lungle first plazar, slated to open on June T, Gels said. Eastgate Brew & View was previously in that area, but closed at the be-ginning of 2018. - Gels said work is back underway on Bells Lane and Aicholtz Road. Some of the work there includes widening puve-ment along Aicholtz from Mt, Carmel Tobasco Road to the Aicholtz Road Com-nector, and replacing and adding sidewalks along the north side of Old State the north side of Old State Route 74, on the west side of Summerside Road, and along the east side of M Carmel Tobasco Road. Work is expected to be done in August.

Opinion: The tomatoes I planted are blooming and 17 inches tall

Howdy folks--It has been a busy weekend. The Grants Greenhouses were very busy last Saturday and Sunday. I was there both days to meet folks and help anyway I was needed. I saw folks I had not seen for sev-- it was wonder ful. All of the green houses kept dry and the deer can't

get to it. I will put a fence around the tire. That is what I need to do. I also planted a peach tree a couple weeks at the Grants, Ellis, Jarmans and other green houses had a very busy weekend. That is good. All of these busia peach tree a couple weeks ago. The tomatoes 1 planted in the walls of water are growing out of the top of the walls of water. They are all blooming and are 17 inches tall. I want to plant peas as 1 like them a lot like my daughter does right off the vine. nesses have a lot of work to nesses have a lot of work to keep the green houses look-ing good and fine plants and flowers. Inteed to plant another as-paragus bed. The one that I had the water stood on and the deer liked the ones that came up so I got some Martha Washington aspara-gus. I had this and it really produced well. This time the asparagus will be put in a big tractor tire so it can be kept dry and the deer can't

Paul and I went down to the Grants Greenhouse on State Route 131 and looked at the greenhouses where they have the tomatoes planted. The lady told us

there are over 100 plants in this one house. There were over 3 foot tall. I saw a small green tomato as big Then he comes back to my lap for some petting and then jumps down and goes back to his food for another small green tomato as big as a matble on the plants. As write this article Mr. Chester is laying on my bed. Here is wn yroutine in the monting with him. I make coffee, and open his canned food. Then I let him in. I go get the paper and after Wr. Chester crust his canned food – not all of it, he jumps on my lap. Then after he gets some pipeting and love, then he jumps down and goes and gets a drink. back to his food for another few bites. That he makes a run for the bed. Now he is sleeping on my bed and when I go to change clothes. He just looks at me then goes back to sleep. What a life cats live! I talked to the Boars Head Bait Shop in Afton. They said the folks that are finding the fishing in the East Fork are finding the fishing to be slow. The lake is high now and going down. Italked to Sherry's Lake and they are

catching some catfish. On feller caught and 18-1/2 pound shovel head catfish on Tuesday. Fishing at the pay lakes is good. Talked to Cedar Lake and

Talked to Cedar Lake and a feller caught a 41 pound bluecat on Sunday. That is a good size fish. The young lady said they are stocking channel caffish each week. It is time to go fishing! Start your week by going to the house of worship of your choice and praising the rood Lord.

od Lord God bless all More later
