I realize this will not change the outcome of the verdict, but I still have the right to speak the truth. I retained an attorney from a law firm in Ohio to file an appeal for me, but after reading over the transcripts he said that the Public Utilities Commission of Ohio always backs its officers whether they are right or wrong, and to appeal would be like a fish swimming upstream.

I requested to be given a lie detector any place the court chose. I was informed lie detector tests are inadmissible.

Inspector Jonathan Holzworth lied. Common sense shows that, even if I was holding my phone to my RIGHT ear (which I WAS NOT), he could not have seen my phone or the color of my cell phone case through tinted windows 25 feet away if he was on my LEFT, as the citation indicates. He would have been on the wrong side of me to see it, and my hand would have been over the case and obscuring it. My phone was in a phone holder on the dash, just as it always is! He saw the color of the case WHEN he stepped up on the passenger step of my truck and asked to see my phone. I ALWAYS wear an ear piece or hands free device over my head.

My Verizon call log showed I was not on the phone just before or at the time of the traffic stop. My hearing attorney had that log from the very beginning, and never once said I would need a certified copy directly from Verizon. An uncertified copy was admitted into evidence at the hearing.

The cell phone log (a recently obtained certified copy from Verizon) which I am attaching for your reference shows that I have 3 phone numbers: I have one number for my cell phone, one number for my Samsung Tablet ELD, and one number for my computer jet pack (internet card). I do NOT have 3 cell phones! Anyone that travels to another time zone would be able to look at their call log and see the time zone follows the area the phone is in when calls are made, NOT in the home base time zone.

Through all of this I have learned evidence can be slanted and interpreted to show guilt even when I am innocent! And that an officer's lie out-weighs the truth!

I take my career very seriously and don't hold my phone to my ear at any time! I use a headset at all times, even when I am not driving.

This verdict is unjust and incorrect. There is no justice.

Respectfully submitted,
Terry Henry-Britt
