PUCO Docketing Division:

The Indiana & Ohio Railway Company (IORY) is submitting the following update for the above referenced project as a follow up to the traffic preemption issues.

The railroad is exploring adjusting the MDR1, MDR2, MDR3 and MDR4 timing, then adjusting one of the narrow band shunt frequencies. Due to the amount of traffic across the Mason Subdivision, it limits the opportunities to review the pre-emption operation.

Please feel free to contact me at (614) 479-1716 if you have any questions regarding this submission.

Sincerely,

  
Christopher R. Frank
