

THE PUBLIC UTILITIES COMMISSION OF OHIO

IN THE MATTER OF THE AUTHORIZATION
OF NORFOLK SOUTHERN RAILWAY TO
INSTALL ACTIVE WARNING DEVICES AT
TWO GRADE CROSSINGS IN THE CITY OF
PORTSMOUTH, SCIOTO COUNTY.

CASE NO. 19-1291-RR-FED

FINDING AND ORDER

Entered in the Journal on July 17, 2019

I. SUMMARY

{¶ 1} The Commission directs Norfolk Southern Railway to install lights and gates at two grade crossings in the city of Portsmouth, Scioto County, by January 17, 2021, subject to the Commission's ongoing jurisdiction and oversight.

II. DISCUSSION

{¶ 2} R.C. 4905.04 provides that the Commission has statutory authority to regulate and promote the welfare and safety of railroad employees and the traveling public.

{¶ 3} R.C. 4907.471 provides that the Commission shall survey all grade crossings and establish a priority list to determine which grade crossings are in need of additional protective devices.

{¶ 4} R.C. 4907.476 provides that where the Ohio Department of Transportation (ODOT) enters into contracts and agreements for grade crossing protective device projects, the Commission shall work with and through the department. Federal funding for such projects is provided through the Ohio Rail Development Commission (ORDC), which is an independent agency of the state within ODOT, established in accordance with R.C. 4981.02.

{¶ 5} Norfolk Southern Railway (NS) is a railroad as defined in R.C. 4907.02 and subject to the jurisdiction of the Commission under R.C. 4905.04.

{¶ 6} On June 9, 2019, Staff filed a memorandum stating that the ORDC has authorized funding for NS to install lights and gates at the Fourteenth Street

(DOT#473475X) and Spring Lane/Noel Avenue (DOT#473479A) grade crossings in the city of Portsmouth, Scioto County. Plans and estimates have been approved, subject to revision after bid tabulation; 85 per cent of the cost will be paid by federal funds, with 15 percent paid by NS. The costs are as follows:

DOT#	Improvement	Street	Federal Funds Provided
473475X	Install lights and gates	Fourteenth Street	Plans and estimates \$334,392.00, subject to revision after bid tabulation, reimbursable up to \$284,233.20
473479A	Install lights and gates	Spring Lane/ Noel Avenue	Plans and estimates \$341,181.00, subject to revision after bid tabulation, reimbursable up to \$290,003.85

Staff notes that the crossings were surveyed on October 19, 2016, and was found to warrant the upgrade. Staff requests that the Commission issue an order directing completion within eighteen months.

{¶ 7} Upon review, NS is hereby authorized to acquire project materials and to commence construction as detailed in the letter of construction authorization. NS shall notify Staff at least five working days before the date work is scheduled to begin at the projects so that arrangements can be made for any inspection. In addition, NS shall timely notify Staff of any changes in the scope of work, cost overruns, materials, etc., which are not in the approved plans in order to estimate and secure approval before the work is performed.

{¶ 8} Within 30 days of the issuance of this Finding and Order, NS shall file notice that it has initiated discussions with AEP Ohio (AEP) or any other applicable utility, to ensure that electric service will be available to enable the grade crossing improvements to be constructed and placed in service within the deadline specified by the Commission. Such filing shall identify the steps NS has taken with AEP, or any other electric utility, and the local highway authority to have electric service available during the construction and cut-in phases of the projects. NS shall serve a copy of the notice upon AEP or any other applicable utility. To ensure that the deadline is met, AEP or any other applicable utility shall timely inform the Commission in writing of any issues regarding the availability of electric service.

{¶ 9} The Commission will issue no further construction authorization. Further, the grade crossing improvement projects should be completed by January 17, 2021.

{¶ 10} It is expected that all work necessary for Federal Highway Administration acceptance of the warning devices will be completed by the in-service due date and that NS will be responsible for this work. This work includes, but is not limited to, any ancillary work to make the warning devices function as designed and visible to the roadway user, and Manual of Uniform Traffic Control Devices compliance, including minor roadway work, if necessary.

{¶ 11} In order to expedite the activation of the warning devices, the Commission no longer requires a delay in activation pending final inspection by Staff. At the time Staff or ORDC makes its final inspection of the devices and finds that the identified installations are complete and the warning devices have been put in service, Staff should file a memorandum in this docket indicating that the installations are complete and that the warning devices have been put in service.

{¶ 12} With the intention of promoting increased public safety during the pendency of the project, the Commission urges the appropriate local government agency to make an

immediate assessment of interim physical improvements, which would enhance driver awareness at the crossings. The Commission may provide assistance in funding improvements, such as rumble strips, illumination, signs or other safety enhancements for the projects. Applications for such funding should be made to the Commission's Transportation Department, Rail Division, which shall review any proposal. In the event the department finds the improvements appropriate, the department director is hereby authorized to execute a contract with the local government agency, and obligate up to \$5,000 from the State Grade Crossing Safety Fund for such improvements at the projects' locations. However, the local government agency should not initiate any improvements until a contract has been executed.

III. ORDER

{¶ 13} It is, therefore,

{¶ 14} ORDERED, That by August 17, 2019, NS file notice that it has initiated with AEP, or any applicable utility, the process to ensure that electric service will be available at the involved grade crossings as set forth in Paragraph 8. It is, further,

{¶ 15} ORDERED, That NS follow the detailed instructions as outlined in the ORDC letter of construction authorization and proceed with and complete the projects by January 17, 2021. It is, further,

{¶ 16} ORDERED, That NS notify Staff and ORDC at least five working days before the date work is scheduled to begin at the sites of the projects so that arrangements can be made for any inspection. It is, further,

{¶ 17} ORDERED, That NS timely notify Staff and ORDC of any changes in the scope of work, cost overruns, materials, etc., which are not in the approved plans and estimates, and shall secure approval before the work is performed. It is, further,

{¶ 18} ORDERED, That, at the time Staff or ORDC makes its final inspection and finds that the installations at the grade crossings are complete and the warning devices have been put in service, Staff will file a memorandum in this docket indicating that the installations are complete and the warning devices have been put in service. It is, further,

{¶ 19} ORDERED, That a copy of this Finding and Order be served upon ORDC, NS, Service Director for the city of Portsmouth, AEP, and any other interested person of record.
