DOCKETING CASE #: 18-1607-EL-BGN

SUBJECT: Emerson Creek Wind Project

Please docket the following comments:

"I note in the public comments section of the Emerson Creek Wind Project that multiple out of area individuals are extolling the virtues of the project. Over 95% of these individuals do NOT live, and will NOT move to, the areas where the wind turbines will be built. This proves a salient point for the anti-wind groups. People who will live around and among these 655 foot tall monstrosities do NOT want them. And the only people who do want them are the few landowners who will host a turbine, APEX Clean Energy and its employees, and the people who will construct them. Out of state 'energy companies', out of area unions and just a handful of landowners should not set public policy for the 133,000 citizens of Erie and Huron County. I hope the Ohio Power Siting Board is nuanced enough to disregard the comments from people with nothing but a short term financial interest in this project. The residents of Erie and Huron County should be listened to, first and foremost."

Thanks,
Nicole Moore
(on behalf of OPSB)
