**Re: Guernsey Power Station, LLC,  
OPSB Case No. 16-2443-EL-BGN**

Dear Ms. Troupe:

The October 5, 2017, Opinion, Order, and Certificate (“Certificate”) approving Guernsey Power Station, LLC (“GPS”) Certificate of Environmental Compatibility and Public Need to Construct the Guernsey Power Station approved the Stipulation which set forth a set of conditions as part of the Certificate.

Within this set of conditions, **Condition No. 22** requires that:

**Applicant shall develop a Transportation Management Plan and enter into a Road Use Agreement with the county engineer(s). Applicant must submit the agreement to Staff for review to ensure compliance with this condition.**

On August 13, 2019, the Ohio Power Siting Board Staff was provided correspondence from the Guernsey County Engineer indicating that the County will not be requiring a Road Use Management Agreement (“RUMA”) for Seneca Lane as a result of the modifications to Seneca Lane including full-depth reclamation, widening and repaving that the project will be making of this road. Thus GPS is in compliance with this requirement of Condition No. 22.

If you have any questions please do not hesitate to contact me.

Sincerely,

Dylan F. Borchers
