Re: OPSB Case No. 19-1740-EL-BTA
Supplement to Application for a First Amendment to the
Scioto Ridge Transmission Line

Dear Ms. Troupe:

Accompanying this letter is a supplement to the Application for a First Amendment to its Certificate of Environmental Compatibility and Public Need for the Scioto Ridge Transmission Line, issued in Case No. 13-1768-EL-BTX. The supplement consists of two pages from the Application that have been revised to clarify the project's construction status and schedule. A copy of this supplement is being mailed this day via U.S. mail to the entities and persons listed on Hardin Wind LLC's September 6, 2019 proof of service filed in this proceeding.

Very truly yours,

/s/ Michael J. Settineri

(4) Environmental and Socioeconomic Considerations

No material changes from prior filings.

(5) Project Schedule

Project construction commenced on March 11, 2019 with initial tree clearing. Facility component construction is anticipated to begin in October 2019 and be completed within four months, at which point the Facility will be placed in service. Additional information about the Facility' schedule is provided in Section 4906-15-02(F)(1) of this Amendment.

(B) GENERAL OVERVIEW

No material changes from prior filings.

(C) ELECTRONIC COPY OF DATA

No material changes from prior filings. Similar to the Application, an electronic copy of all digital, geographically referenced data used in the preparation of this Amendment has been provided to the OPSB with the filing of this Amendment.

(2) Gas Transmission Lines and Associated Facilities

No material changes from prior filings.

(C) SYSTEM ECONOMY AND RELIABILITY

No material changes from prior filings.

(D) OPTIONS TO ELIMINATE THE NEED FOR THE PROPOSED FACILITY

No material changes from prior filings.

(E) FACILITY SELECTION RATIONALE

No material changes from prior filings.

(F) FACILITY SCHEDULE

This section describes the anticipated revised schedule for Facility permitting and construction. Please note that the dates/timelines provided herein are target estimates.

(1) Schedule

(a) Construction of the Facility

Facility component construction is anticipated to begin in October 2019.

(b) Clean-Up and Demobilization

Clean-up and demobilization are expected to begin in January 2020 and take approximately 1 month to complete.

(c) Placement of the Facility in Service

The Facility will be placed in service upon completion of construction, anticipated for the first quarter of 2020. As-built specifications will be provided to Staff within one year of the commencement of commercial operation.
