PUCO Docketing Division:

The Indiana & Ohio Railway Company (IORY) is submitting the following update for the above referenced project as a follow up to the traffic preemption issues.

The Ohio Rail Development Commission (ORDC)'s preemption consultant made the recommendation for the current conditions involving the traffic signal timing modification, a modification of the gate operation for Bethany Road gates, and modification of the railroad preemption equipment to accommodate the proposed preemption timing sequence.

The railroad has requested Progress Rail to provide a cost estimate and estimated time to perform the recommendations of the ORDC's preemption consultant. The railroad will coordinate with ORDC and will move forward once the notice to proceed has been issued.

Please feel free to contact me at (614) 479-1716 if you have any questions regarding this submission.

Sincerely,

Christopher R. Frank
