## **Exhibit B-2 “Experience and Plans”**

Texzon Utilities, Ltd. is an aggregator/ broker of electricity services, working with over 20 electric providers. We have been doing so in the state of Texas for over 17 years, having been legally formed in February 2002. (Prior to August 2006, we were known as Texxon Utilities, Ltd. The Exxon/Mobil legal department contacted us and demanded that we change our name due to their interpretation that our name infringed on their name. We changed our name at that time to Texzon Utilities, Ltd.) We have helped over 5,000 commercial and 3,000 residential clients contract with REPs (Retail Electric Providers in Texas), helping them obtain lower pricing than they normally would on their own.

For commercial clients, Texzon typically obtains 12 months usage from the incumbent provider through an LOA process and then shops this with one or more providers to get the best price that we can for the client.

We do not solicit residential clients. We do, however, try to help commercial clients and their employees with their own homes, and those that learn of our services. We attempt to help all residential clients through online signups so that there is less chance of misunderstanding on their part.

Texzon does not take title to the power at any point in the process. We do not bill the client, as the REPs pay us a commission out of the final price quoted to the client.

Natural gas is not deregulated in Texas. However, we market gas in deregulated states in the same way as we do electricity, by contacting commercial clients directly.

## **Exhibit B-3 “Disclosure of Liabilities and Investigations”**

Texzon Utilities does not have any past or current rulings, judgments, contingent liabilities, revocations of authority, regulatory investigations or any other legal matters that could adversely impact Texzon Utilities’ financial or operational status or ability to provide the services for which we are seeking to be certified to provide our customers.
