Re: *North Lake Energy LLC*, Case No. 17-1881-EL-REN

Dear Ms. McNeal:

On September 18, 2017, North Lake Energy, LLC, filed its application for certification as an Eligible Ohio Renewable Resource Generating Facility, for a 15 MW portion of its Unit 17 in East Chicago, Indiana. As part of its application, North Lake noted its registration with the Generation Attribute Tracking System (GATS). On October 25, 2018, the Commission issued Certificate #18-WER-IN-GATS-0472 to North Lake for those 15 MW.

Effective January 1, 2020, North Lake intends to switch its tracking system registration from GATS to Midwest Renewable Energy Tracking System (M-RETS). Upon issuance of a new certificate from the PUCO, North Lake will register with M-RETS and will no longer track through GATS. All RECs tracked by GATS have been or will be sold; no 2019 RECs will carry forward into M-RETS and no double-counting will occur. No other material changes have been made or will be made to North Lake's facilities regarding any of the information in North Lake's 2017 application.

Please file this letter in the above-captioned docket and do not hesitate to reach out to me if there are any questions.

Respectfully submitted,

/s/ Lucas A. Fykes

Counsel for North Lake Energy, LLC
