Re: *In re Aqua Ohio Wastewater, Inc.*, Case No. 19-0969-ST-ATA

Dear Ms. McNeal:

On May 6, 2019, Aqua Ohio Wastewater, Inc. (AWI) filed an Application in this proceeding asking for authority to make certain changes to P.U.C.O. Tariff No. 1 (the Tariff). Contained within said Application was a proposal to revise Section 3-2 of the Tariff to include additional language regarding disconnection due to payment returned for insufficient funds.

After discussions with Commission Staff, AWI formally withdraws said proposal to revise Section 3-2 of the Tariff. Attached to this correspondence are the remaining proposed tariff changes in redline form, which were previously identified in Exhibit B to said Application. (Sheets 3 and 4 in Section 2 have been updated to reflect the changes issued on December 23, 2019 in Case No. 18-1841-ST-UNC.) The proposed changes to Section 3-2 of the Tariff, which have now been withdrawn, are not included. In addition, minor changes have been made to proposed Sheet 1 in Section 3-5. AWI respectfully requests that the Commission approved its Application, as amended.

Please note that a copy of this correspondence will be filed electronically in this proceeding through the Commission's Docketing Information System (DIS).

Respectfully submitted,

/s/ Christopher T. Kennedy
Counsel for Aqua Ohio Wastewater, Inc.

SUMMER/WINTER SEWER USAGE FORMULA

This formula applies to Domestic sewer customers and Non-Domestic sewer customers providing service to apartment buildings that have five or more residential units in a building.

Definitions:

Winter Period is defined as the revenue periods of December, January, and February wherein the sewer customer's meter is read and/or estimated and billed.

Winter Period Average Usage is defined as the sum of the usage per the actual and/or estimated water meter registration during the Winter Period divided by three.

Summer Period is defined as the revenue period of May, June, July, August, and September wherein the sewer customer's meter is read and/or estimated and billed.

Non Summer Period is defined as the revenue periods of October through April wherein the sewer customer's meter is read and/or estimated and billed.

Formula Description:

The volume of sewer usage during the Summer Period months shall be considered to be equal to the lesser of the Winter Period Average Usage or actual usage. In the Summer Period, the lesser of the Winter Period Average Usage or actual usage as defined above will be billed at the tariff rates for General Sewer Service as listed on Section 4, Sheet No. 1.

For domestic customers who have not been provided service for all three Winter Period months and thus have not established a Winter Period Average Usage, the lesser of actual Summer Period usage or 6 Ccf (4,500 gallons) per month will be used for the Summer Period billings. The lesser of actual usage or 6 Ccf will be billed at the tariff rates at the General Sewer Service tariffs as listed on Section 4, Sheet No. 1.

For Non-Domestic customers who have not been provided service for all three Winter Period months and thus have not established a Winter Period Average Usage. This Summer/Winter Sewer Usage Formula shall not apply until the customer has an established Winter Usage Average.

In the Non-Summer Period, sewer customers will be billed for sewer service based on actual and/or estimated water meter registration and using the General Sewer Service tariff as listed on Section 4, Sheet No. 1.
