**Subject:** Central Corridor Pipeline

**Message:** I'm writing to you because the pipeline Duke is proposing is going within 75 ft of my home and closer to many others. Not only will it drive down our property values but is dangerous to our community. Please look into this matter. We have heavy semi traffic on this roadway and any leak would be catastrophic to say the least. Looking back at the one that exploded in Kentucky my reaction time would only be 2 minutes before my house would be leveled.. This pipeline is not a distribution line but a transition line benefiting no one in its path. It is very dangerous to run such a line in a heavy populated area. We need your help. Thank you for your time, Colleen Ziegert
