Ohio Power Siting Board 180 E Broad St Columbus, OH 43215

Chairman Randazzo and Members of the Ohio Power Siting Board:

I strongly support the Emerson Creek Wind project because of the economic development that it will bring to our area. It will bring stable income to landowners who will invest in their land and spend that money in our community. It will bring funding for schools and grow the minds of the next generation of Ohioans. And, yes, it will bring careers. Good jobs that pay well to employ our kids right here in our community.

All of these revenue streams will serve to energize the local economy which will only create more jobs and more tax revenue for our counties, townships, and school districts.

It's important to me that I'm able to express my support for this project. Frankly, the majority of people in our area are supporters. Unfortunately, there is a small, but very loud and vocal minority who oppose it. They spread information around our community that has been proven to be false time and time again.

There are so many benefits that this project will bring to Northern Ohio. Please grant a permit to Emerson Creek Wind and allow this significant economic development in our community to move forward.

Sincerely,

Herbert & Crum

P.S. I don't like outside people (non-former) what we can or cannot do with over own land! They are not paying over land taxes!

This is to cartify that the drama that the gave an accurate and complete regime because of the drama down of the drama of
