Subject: Wind turbines 17-2295-el-bgn & 18-1607-el-bgn

I live 5 miles north east of republic ohio. There is a new eagles nest half a mile south of our home and a nature reserve a half a mile east of our home. There are supposed to be at least 6 turbines with in 1.5 miles of our home. That shows no concern for the wild life. In seneca county. Listen to what is happening in other countries with the wind projects in other countries. They are making set back distances longer because of health issues. Apex is not even going by the recommended set backs in the manuals. They want to set them to close to our homes. PLEASE vote no on these wind projects to protect the people and wild life in northern ohio. Thank you. Norman Wurm
