RE: Telcove Operations, LLC (CLEC)
Letter of Discontinuance of Certain Voice Services
Case No. 90-9071-TP-TRF and Case No. 20-1094-TP-WBL

Telcove Operations, LLC ("Telcove" or "Company") files this letter as notice to the Public Utilities Commission of Ohio. In Ohio the Company is certificated as a Competitive Local Exchange Carrier (CLEC). The Company offers BLES service and is withdrawing the tariff for services listed in 4901:1-6-25(B). This partial discontinuance of certain local business telephone services provided by Telcove only involve services to non-residential customers, **and there are no customers purchasing these services so no customers are impacted.** This discontinuance of local services is part of a multi-state effort. Due to changes in technology and market conditions, Telcove has modified its focus and seeks to discontinue throughout the state provisioning of switched-based local voice services while continuing to provide other services in Ohio, including access services and is not surrendering its Certificate of Public Necessity ("CPCN").

The only provisions that are applicable in this circumstance is 4901:1-6-25, Division (A) and (B), which requires:

- (A)
 - 1. 30-day notice to (a) all affected customers, (b) PUCO telecommunication chief, and (c) PUCO chief service monitoring.
 - Telcove has no customers and therefore notice is not applicable.
 - 2. 30-day notice to wholesale customers/wholesale providers.
 - Telcove has no wholesale customers and therefore notice is not applicable.
- (B)
 - 1. Zero-day notice filing (ZTA) is included.
 - 2. Telcove has no customers and therefore there are no deposits to return.
 - 3. Telcove is not reselling another telephone company's services.
- (C)
 - Telcove has no assigned area code prefix(es) or thousand block(s) to return to the North American numbering plan administrator.

The Company plans to discontinue the switch-based local services in this multi-state effort on or around June 30, 2020. Should you have any questions about this notice, please contact me.

Sincerely,

/s/ Robyn Crichton

Section 7 - BUSINESS NETWORK SWITCHED SERVICES

7.1 GENERAL

Business Network Switched Service provide a business customer with one (1) access line connection to the Company's switching network which enables the customer to:

[C]

- a. receive calls from other stations on the public switched telephone network;
- b. access the Company's local calling service;
- c. access the Company's operators and business office for service related assistance; access toll-free telecommunications service such as 800 NPA; and access 911 service for emergency calling; and
- d. access the service of providers of interexchange service or intraLATA toll service. A customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive 800 service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (10XXX). At the time of initial subscription, the customer shall designate a Primary Interexchange Carrier (PIC) for intra-LATA and inter-LATA toll service. If the customer does not select an intra-LATA PIC, and does not request blocking of intra-LATA toll calls, the Company shall be deemed to have been designated as the customer's intra-LATA PIC.

TelCove, when providing toll service, may "universally" block access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not denied the right to select, through a presubscribed interexchange change (PIC) mechanism, any other 1 + presubscribed toll service provider who is obligated to provide such service under the terms of the Selective Access Policy. Under the terms of the Selective Access Policy, TelCove when providing toll service, may not deny establishment of 1 + presubscribed toll service on the grounds that the customer has failed to establish creditworthiness, if: (a) the customer is able to establish creditworthiness using one of the means for doing so available under the Public Utilities Commission of Ohio's (PUCO) rules, or (b) TelCove, when providing toll service, exercising its own discretion, does not require the customer to establish creditworthiness (through any of the means available for doing so under the PUCO rules), or (c) TelCove, when providing toll service, attempts to require the customer to establish creditworthiness using credit establishment procedures which do not comport with the PUCO's credit establishment policies and/or are not set forth within a PUCO approved tariff. When a prospective customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select TelCove as his or her 1 + carrier of choice, TelCove may, subject to our tariffed toll deposit policies and the Commission's rules on establishment of service (See Rules 4901:1-5-14 and 4901:1-5-15, Ohio Administrative Code, [O.A.C.]), require a deposit for toll service. This deposit shall be in accordance with Rule 4901:1-5-13 (A) (3), O.A.C., but TelCove may negotiate a lower deposit. TelCove may furnish credit information, acquired from TelCove's won experiences with the customer, to consumer reporting agencies within the meaning of the Federal Fair Credit Reporting Act. TelCove will follow all requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Fair Credit Reporting Act. Upon payment by the customer of all past due toll debt to TelCove, TelCove will remove the block and all 1 + dialing capabilities, including 10 -XXX, will be restored.

Section 7 - BUSINESS NETWORK SWITCHED SERVICES

7.2 GENERAL (Cont'd)

Business Network Switched Service is provided via one (1) channel terminated at the customer's premises. Each Business Network Switched Service channel corresponds to one or more analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time.

[C]

Connection charges as described in Section 2 apply to all service on a one-time basis unless waived pursuant to this Tariff.

2. Recurring and Nonrecurring Charges

Charges for each Measured Rate Service line include a monthly recurring Base Service Charge and usage charges for completed calls originated from the customer's line based on the duration of calls during the billing period. In addition to the nonrecurring charges listed below, service order charges apply as described in Section 3 of this tariff. In certain circumstances, service to customers may require the use of a link (and, or) number portability arrangements provided by the Incumbent Local Exchange Carrier. In such circumstances, the monthly recurring charge to the customer will be the greater of the company's Base Service Line charge set forth below or the charge to the company by the Incumbent Local Exchange Carrier for the link used to serve the customer. If the customer is served through a Number Portability Arrangement, the monthly charge to the customer will be increased by the applicable charge from the Incumbent Local Exchange Carrier to the Company of the Number Portability Arrangement.
