Project #P400828132

CASE NO. 19-2156-GA-BLN
LETTER OF NOTIFICATION
AUGUSTA COMPRESSOR STATION
INSTALLATION PROJECT

The following information is being provided in compliance with Condition No. 1 of the March 13, 2020 Ohio Power Siting Board (“OPSB”) Staff Report of Investigation, and as agreed to by the East Ohio Gas Company d/b/a Dominion Energy Ohio’s (“DEO”) Supplement to Letter of Notification filed March 17, 2020.

Condition No. 1 states:

Prior to construction, the Applicant shall submit on the docket of this case, for review and confirmation by Staff that it complies with this condition, a project construction plan that provides the specific locations of its laydown areas. If the specific laydown locations chosen appear to have additional adverse impacts, the Applicant shall be directed to either propose different specific locations without such impacts, or refile its application.

DEO has now selected Applied Construction Solutions as its general contractor for the Augusta Compressor Station. DEO is providing a laydown area within the existing the Augusta Station project area that the construction contractor will utilize.

CASE NO. 19-2156-GA-BLN
LETTER OF NOTIFICATION
AUGUSTA COMPRESSOR STATION
INSTALLATION PROJECT

Aerial view of the proposed laydown location for Augusta Compressor Station on the existing Augusta Station property located at 8090 Bane Rd NE. This area poses no environmental issues as the area is an existing grassy field with no environmental features located in the proposed laydown area.

CASE NO. 19-2156-GA-BLN
LETTER OF NOTIFICATION
AUGUSTA COMPRESSOR STATION
INSTALLATION PROJECT

The laydown area in the grassy field will be improved with the addition of matting/gravel to allow for use as a laydown area during construction activities. No additional tree clearing is required for the laydown area. As long as typical best management practices (i.e. street cleaning, gravel topdressing, and sediment control devices) are utilized, no additional adverse environmental impacts are expected. DEO fully intends to use these best management practices.
