RE: Construction Notice  
Bell Ridge 138 kV Switch Project  
Case No. 20-1136-EL-BNR

Dear «ADDRESSEE»:

You are receiving this letter because we wanted to let you know about a proposed electric transmission project in your area.

AEP Ohio representatives plan to install the Bell Ridge Switch and approximately 150 feet of 138-kilovolt transmission line into Washington Electric Cooperative's Lawrence Station. The station is located off OH 26 North in Lawrence Township, Washington County. The proposed project increases electric reliability for customers in the area. Construction begins this fall on AEP Ohio's property and concludes early 2021.

Please see the attached Construction Notice, which we must submit to the Ohio Power Siting Board (OPSB) when we make certain changes to our transmission facilities. This submission complies with Rule 4906-6-01, et. seq., of the Ohio Administrative Code. We filed this project as the Bell Ridge 138 kV Switch Project, Case No. 20-1136-EL-BNR.

The Construction Notice to construct, operate and maintain this facility awaits review by the OPSB. Please make this Construction Notice available to the public. We also are communicating with landowners in the project area.

The following map shows the project area. Please use this map only as a general guide due to its reduced scale and limited detail.

Please contact me at (380) 205-5046 or [jkdemaree@aep.com](mailto:jkdemaree@aep.com) if you would like an electronic copy of the Construction Notice or if you have any questions about this project.

Sincerely,

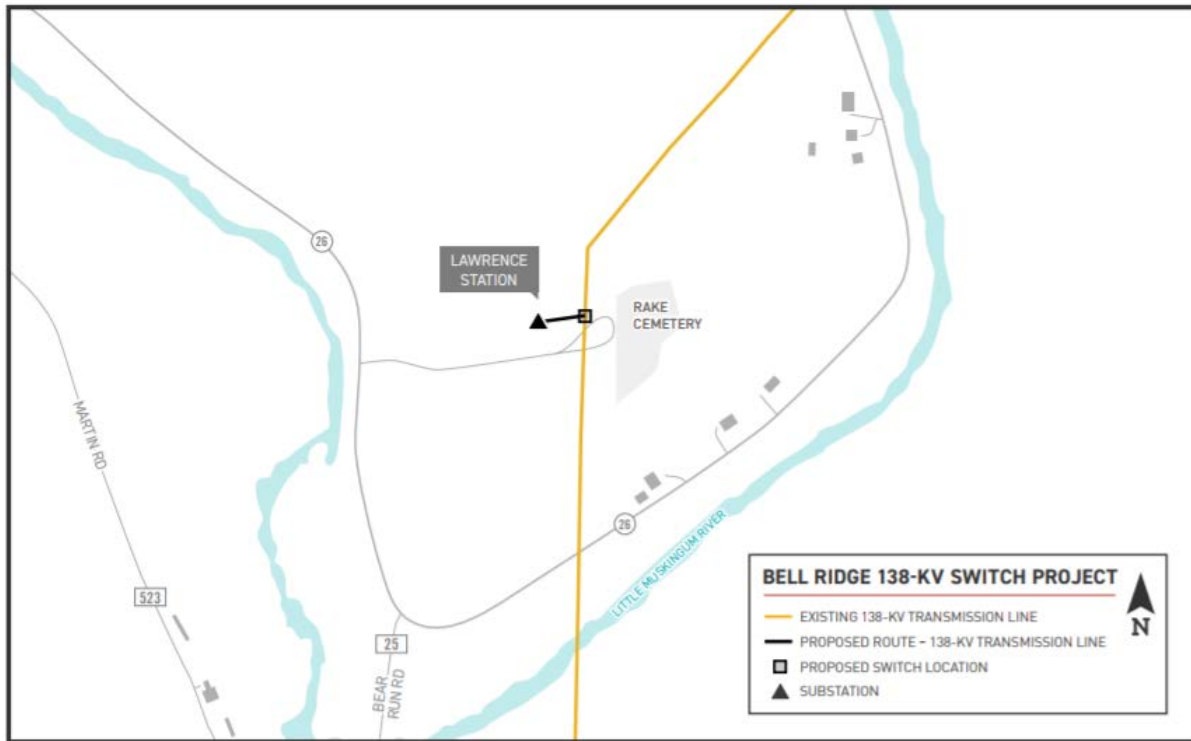

Joe Demaree
